leisure, entry-level fitness, walking, running**

Fleece Nuls Series

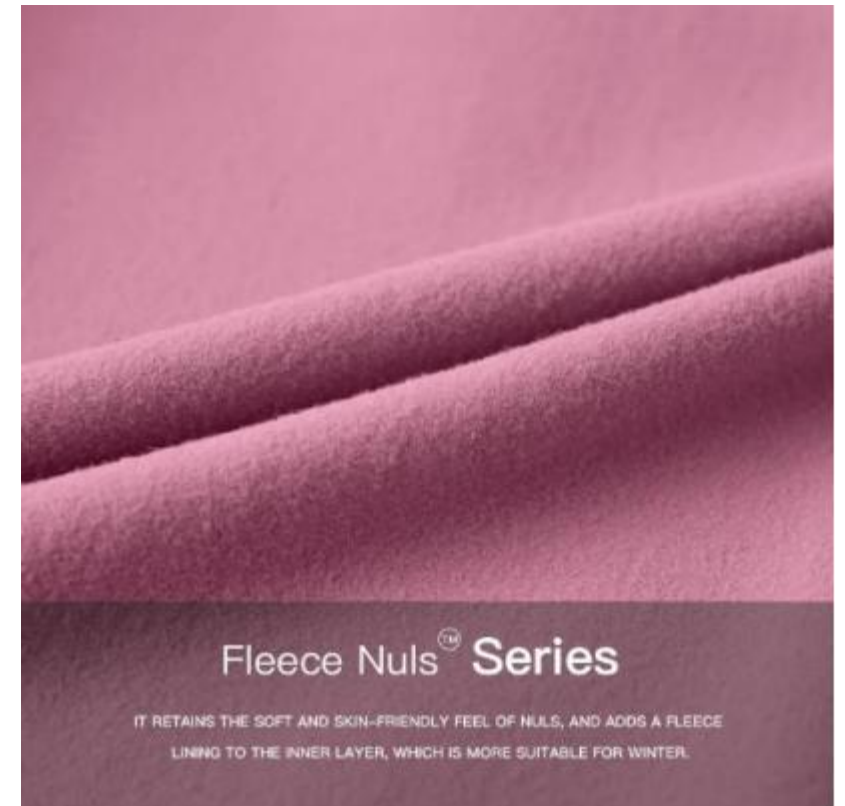

Features:

As the chill of winter descends, Nuls presents its latest innovation - the Fleece Series, a fusion of contemporary style and unparalleled warmth. Building upon the beloved softness and skin-friendly feel of Nuls, this collection takes comfort to new heights with the addition of a luxurious fleece lining to the inner layer. The carefully selected materials ensure that you stay warm without compromising on breathability. The fleece lining not only retains heat but also wicks away moisture, keeping you comfortably dry even in the frostiest weather.

Ingredients: 80%Nylon+20%Spandex

Weight: 240 Grams

Suitable for sports scenes: sports and leisure, entry-level fitness, walking, running

Air Vent Skin Friendly

Features:

Thin and elastic, it is still soft and comfortable to wear. It adopts a mesh breathable design to facilitate ventilation and perspiration, giving you a comfortable and breathable wearing experience. The soft and delicate yarn effectively reduces the discomfort caused by the friction between the breast and the fabric; the Lycra® spandex is used, which is elastic, comfortable and supportive, making the underwear more close-fitting, less likely to lose shape, and less prone to wrinkles, etc. It is fine, thin and smooth Excellent texture and excellent elasticity, the fabric has been treated with far-infrared AAA antibacterial treatment It can effectively inhibit the growth of bacteria and remove odor caused by sweat.

Ingredients: 79%Nylon 21%LycraGram
Weight: 155cm*100g
Function: Inhibit bacterial growth
